Remarkable Beauty

JELD-WEN® custom fiberglass doors will consistently stand up to any climate—hot or cold, wet or dry—yet they look virtually indistinguishable from solid wood and come with a Lifetime Limited Warranty and a Five-Year Limited Warranty on finish. This makes them the most unique fiberglass doors available today. In fact, they’re the world’s finest. We’ve created these reliable and remarkable doors in many architecturally inspired designs and with a vast range of options, which allows you to make our artistry your own.

Estate™ Collection

With their unique charm, it’s no wonder that door designs in this collection are some of our most popular. They are crafted to reflect the timeless enchantment and visual warmth of old world aesthetics, so they’re sure to enhance new and existing homes alike. These doors are available with beautiful stain colors in knotty alder and mahogany woodgrains, with rustic hardware and decorative accents, and glass inserts that can be customized with different designs, glass types and caming.

A1202
Knotty Alder Woodgrain
Radius Top Panel Door, Cashmere Finish, Optional Speakeasy and Bordeaux Grille in Dark Patina

A1202
Mahogany Woodgrain
Double Radius Top Panel Doors, Caramel Finish, Optional 1-3/4” Round Clavos in Dark Patina

A1202

« A1301 Mahogany Woodgrain Panel Door with Cashmere Finish and Optional Seville Grille.

Variances in photography, printing and door and sidelight sizes may cause the glass appearance and finish color as well as the door and sidelight layout shown to vary from actual product. Please contact your local dealer for more information.
Craftsman Collection

Perfectly complement a Craftsman, Shaker or Mission style home with the authentic designs in this collection. These designs include many of Craftsman architecture’s defining features, including bold, clean lines with simple flat panels and non-profiled sticking. Options include architecturally inspired shelves, oak and mahogany woodgrain finishes or paint colors, and glass inserts, which can be customized with your choice of designs, glass types and caming.

Folding Door Systems

We’re pleased to provide a radiant new option for your home—our folding door systems. These systems operate accordion-style which means each section slides on an overhead track and neatly folds away for full access to the indoors or outdoors.

FOLDING DOOR HARDWARE

Standard hardware finishes include brushed stainless steel and oil-rubbed bronze. The sill is a bronze anodized combination. It is also low-level for ease of access.

*Please note, oil-rubbed bronze will change in appearance over time.

FOLDING DOOR CONFIGURATIONS

The exterior folding door systems we create are truly customizable, because they’re available in several configurations, ranging from two to eight leaves (depending on the opening width). Special order options include door heights up to 9’10”. We offer widths up to 48’ (for doors opening from the center with a properly engineered header).

Enchanting Choices

Once you’ve selected a door design that’s ideal for your entry, you can ensure architectural authenticity and add individuality with our ample aesthetic options. These options include distinctive woodgrain species in several finish colors, versatile paint surface colors, brilliant glass types and a range of exclusive hardware accents. The combination you choose will make your entry door like no other.

DISTRESSED TEXTURE AND ANTIQUE FINISHES

Doors in our old world collection are available with a distressed surface texture and antique finishes, giving the doors an aged appearance.

- Ivory
- Swiss Coffee
- Khaki
- Forest
- Cobalt
Brilliantly Designed

GLASS TYPES

A wide array of glass types are available, and each one offers its own attractive texture, pattern or color. This glass will not only enhance your chosen door, sidelights and transoms, but will also add radiance to your entire home.

Please note: not all glass designs are available in some door types. Please see your dealer for details.

CAMING

In any glass design, caming is the metal bonding material that fuses individual glass pieces together. This assembly is done by hand, using your choice of bright brass, polished zinc or patina caming. Glass with bright brass or polished zinc caming is triple glazed to protect the finish. Glass with patina caming can be either single or triple glazed.
**Hardware and Accents**

**HINGE OPTIONS**

Our solid brass concealed-bearing hinges are available in four different finishes, so you can choose one to match or complement the other hardware for your door. If you select oil-rubbed bronze, please note that its appearance will change over time.

![Hinge Options](image)

**DECORATIVE TIPS**

For added character, select our decorative hinge tips. They’re available in three shapes, and each shape comes in any of our hinge finish colors.

![Decorative Tips](image)

**SILLS**

To help you create a cohesive look for your entrance, we offer sills to match or coordinate with the door’s woodgrain and stain color combination.

![Sills](image)

**Please note, oil-rubbed bronze will change in appearance over time.**
Visually appealing lock hardware is available for any of our entry doors. This hardware is created with only the finest materials, and it’s available in a range of styles for either right-hand or left-hand doors. Each lockset includes an exterior escutcheon plate, mortise lock, interior escutcheon plate and your choice of knob or lever for the interior (depending on the model).

Strata™ Technology

Every JELD-WEN® custom fiberglass door begins as two detailed fiberglass skins, which are created in molds made from our IWP® custom wood doors. These skins are made with our exclusive Strata™ technology, which incorporates multiple layers of resins, tinted resins, base colors and reinforcing materials for greater structural strength. Next, the skins are adhered to engineered wood frames with our exclusive core materials and bonding agents that permanently lock the skin to the frame. The skins are not only durable but also authentic in appearance.

THE CORE

In the fiberglass door industry, our PolyMicro™ foam core technology is a first. It not only gives each door a dense, solid feeling, but the unique core material also prevents the skin from delaminating. The core is permanently bonded to the skins and frame, so it becomes an integral part of the structure, which keeps the door from warping.

PREFINISHING

For lasting beauty, each door is made with the Permalane™ prefinishing system. During this comprehensive process, layers of specially formulated grain filler and UV-protective stain coats are applied. These stain coats are encapsulated in the final protective top coat, which is created to withstand extreme environments. Our skilled artisans control airflow, temperature and humidity throughout the entire process for an exceptional finish that will protect and enhance the beauty of our doors.

Simply Complete

All custom fiberglass doors are available prehung with the Insignia® door system. This complete package ensures the smoothest installation. It includes all the necessary components, including solid hardwood jambs, moldings, weatherstrips, concealed-bearing hinges (available with optional decorative hinge tips) and your choice of six sill options. All parts are precision-machined for a correct fit and a hassle-free installation. IWP® Aurora® custom fiberglass doors are so durable they do not require an overhang.
