Pan Flashing Systems

Weather Out Flashing is dedicated to solving critical water intrusion problems. These door flashing products are specially designed to be simple to install, have built-in patented drain channels to direct the water out and easily fit in any width opening. Our flashing products feature unique tapered drain channels and end dams that enable the water to flow out!

Key Features Include:

- Available in 4⁹/₁₆" & 6⁹/₁₆" sizes
- Simple to use
- Easy to install
- Built in drain channel
- Durable & Flexible
- Uses recycled materials
- Helps in the prevention of mold
- Does NOT require glue or cement
- Can assist with Green Building certification

It Just Works!
