

# STAIR REMODELING JUST GOT A FEW STEPS EASIER.

## Solid Hardwood Tread

Featuring tongue & groove construction.

## Reversible Return Nosing

A Young Manufacturing exclusive!

before

after

## NEW Young RETROTREAD<sup>®</sup> US Patent Pending

makes it easy to renovate any carpeted stairway to premium hardwood.

Not just easier, but more affordable, simply tear away your old carpet and install the Young RetroTread<sup>®</sup> over your existing stairway. You get a solid hardwood upgrade without having to rebuild.

Young RetroTread<sup>®</sup> is made in the USA by the same family of craftsmen who have been helping to build America since 1858.

A Young Manufacturing exclusive!

## Young <sup>US Patent Pending</sup> RETROTREAD<sup>®</sup>

### A Superior Solution

- Solid Hardwood Tread Cap

Competitive products are generally made of plywood covered with a face of thin veneer and are not up to Young's standards of excellence and craftsmanship. Super strength and stability are hallmarks of Young Manufacturing's high-quality construction. Plus, the Young RetroTread<sup>®</sup> can be refinished just like traditional solid hardwood treads.

- Minimal Impact on Rise

Remodeled hardwood system mimics original stair geometry, and has minimal impact on overall rise and run of stair system.

- Superior Engineered Construction

Tongue and groove construction increases the adhesive area by 40% greatly enhancing the adhesive bond; this along with solid hardwood construction provides maximum strength at the juncture between the tread cap and tread nosing.

- Extra-Long Cove Covers Imperfections

1-1/4-inch reach discretely integrated under the nose hides imperfections in the original stair.

### Exclusive Reversible Return Nosing:

- Only from Young Manufacturing

Nosing is reversible, so it can make a right-hand or left-hand return.

- Solid Hardwood Construction

Provides for stronger, more stable performance with superior finishing properties.

- Increased Length Covers Original Imperfections

Extra-long Return Nosing allows for adjustment of the projection on the skirtboard to hide blemishes present in the original design.

- Easy Field Installation

The components are designed for quick and easy assembly

Available in red oak, white oak, poplar, hard maple, Brazilian cherry and hickory.
