

JELD-WEN

Patio doors reimagined:
More glass and better sight lines

NEW F-4500™ FIBERGLASS FOLDING PATIO DOORS

Designed with less frame and more glass, F-4500™ 2-panel and 3-panel folding fiberglass patio doors make the view the focal point of any space. These beautiful, durable patio doors elevate indoor-outdoor living areas and let in abundant natural light. The 2-panel system fits standard patio door openings. The 3-panel system combines two folding panels plus a daily door. External keyed access and multipoint locks keep security in your hands.

ENGINEERED TO RESIST ROT

Durable fiberglass and fully composite jambs are engineered to stand up to the weather without rotting, swelling, or shrinking.

CONTEMPORARY DESIGN

Sleek, flat profile with slimmer stiles and rails, clean lines, and a streamlined, modern look.

37% MORE GLASS

Features direct glaze frameless glass that creates a larger viewing area and welcomes in ample natural light.

LIMITED
LIFETIME
WARRANTY
