Liberty Rail (RS60)

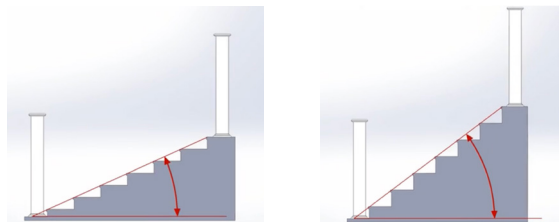

Unique Routed Rail System That Saves on Labor and Material Costs!

- Pre-routed for easy installation - save on labor!
- Our 2-3/4" RS60275 profile is IRC Code R311.7.8.3 Compliant for residential stair graspability
- Standard kits ship with hollow 1-1/4" square-edge balusters, which reduce material costs (available for 6', 8', & 10' level & stair spans)
- Meets International Residential Code (IRC) for spans up to 10 feet on both level and stair rail
- Liberty exclusive upgrade - Black, Round Aluminum Balusters!

Patented Racking Stair System

Pre-routed for easy assembly with an innovative Racking Stair detail that accommodates 18° to 40° Rake Angle.
