

JELD-WEN®

Patio doors reimaged:
More glass and better sight lines

NEW F-4500™ FIBERGLASS HINGED PATIO DOORS

Elevate your indoor-outdoor spaces with F-4500™ 2-panel hinged fiberglass patio doors from JELD-WEN. Designed with less frame and more glass, these patio doors make your view the focal point of any space. External keyed access and a contemporary lock set merge aesthetics and function for added security. This patio door system offers a beautiful, durable solution that enhances indoor and outdoor living areas and lets in abundant natural light.

ENGINEERED TO RESIST ROT

Durable fiberglass and fully composite jambs are engineered to stand up to the weather without rotting, swelling, or shrinking.

CONTEMPORARY DESIGN

Sleek, flat profile with slimmer stiles and rails, clean lines, and a streamlined, modern look.

37% MORE GLASS

Features direct glaze frameless glass that creates a larger viewing area and welcomes in ample natural light.

LIMITED
LIFETIME
