**GRILLES
BETWEEN GLASS**

DOORGLASS

TIMELESS. REFINED. BUILT TO PERFORM.

Black Grilles Between Glass deliver character to the entry—
with the performance and low-maintenance benefits that
today's homeowners expect. Customizable with applied SDL
bars for deeper authenticity.

CLEAN LINES. CLEAR STYLE.

Black Grilles Between Glass bring modern structure to the entry—delivering graphic contrast, simplified upkeep, and enduring style for today's homes.

1. Black Grilles
2. Clear Low-E Glass
3. 7/8" Profile

PRODUCT FEATURES

Encapsulated Design

Grilles are sealed between two panes of glass, protecting the finish while delivering crisp lines and long-lasting performance.

Authentic Customization

Black grilles work beautifully on their own or pair seamlessly with applied SDL bars for the authentic divided-light character that resonates with your customers.

Smart Efficiency

Energy-efficient insulated glass construction supports comfort and performance without added complexity.

Design Flexibility

Available in multiple configurations to complement a wide range of door styles—from minimalist to modern farmhouse.
